\$ 1,175,500

Breathtaking, Amazing, Spectacular, and Unsurpassed are just a few of the words to describe this Ocean Front home. Built by a lumber mill Baron, no expense was spared. 150 degree view of the Pacific Ocean, Battery Point Lighthouse, complete with real wine cellar and media room. Only the finest in wood, some imported from Brazil and Costa Rica. Beautifully appointed rooms, tons of wood accents, and even a heated floor in the master bath. You will enjoy the 20'x40' private patio with completely unobstructed views of the rocky coast line. There are so many features in this home that all cannot be explained without being seen. There are very few homes like this in the entire country. It is truly remarkable. 4464 Sq. feet of living space, a 4-car garage plus a 4-car carport, lush landscaping, even a dumbwaiter. If you are a buyer who is interested in quality construction and an exquisite Ocean View, this is your next home.
